

MSDS and Valuelink® DFU Search Instructions

February 20, 2012

Locating a MSDS or Valuelink® DFU on www.myCardinalmsds.com

Searches may be performed on any of the following in the applicable search fields:

1. Cardinal Material Number
2. Material Description
3. NDC #
4. Vendor Name
5. Vendor Material Number

Material Number: Enter the Cardinal Health Material Number, then click "Search".

You may provide any of the below information if you do not know the Cardinal Health material number.

Material Description:	<input type="text"/>	NDC #:	<input type="text"/>
Vendor Material #:	<input type="text"/>	Vendor Name:	<input type="text"/>

Partial search entries are acceptable

1. Example #1 – If you enter “123” in the Material Number box the search will retrieve all Material Numbers containing this criteria (e.g., 1501238)
2. Example #2 – If you enter “123” in the Material Number box and “Sod” as part of the Material Description (a whole word or part of a word in this case), the search will retrieve all items that meet this multi-criteria (e.g., 2F7123, Sodium CL IRRIG .9 PRCT 500ML).

*You can search using any combination of search fields or all search fields at once, but less will yield more search results.

Opening the MSDS or DFU

When you find the product that you are looking for, click on the [MSDS](#) or Valuelink® [DFU](#) link to the right of the product. This will open a new window containing the MSDS and from this window you will be able to print or save the MSDS.

Search Results

Material # ↑	Material Description	Vendor	Vendor Material #	NDC	View DFU	View MSDS	Kit
2F7123	SODIUM CL IRRIG .9 PRCNT 500ML	BAXTER HEALTHCARE CORPORATION	2F7123	0338- 0048- 03	DFU	MSDS	
SX071230	SODIUM PHOSPHATE USP 25KG	EMD CHEMICALS INC	SX0712/30			MSDS	
81-570123	SYRINGE FILLED 3ML .9 PRCNT SODIUM CHLRD	TYCO HEALTHCARE - KENDALL	8881570123			MSDS	

Items requiring multiple MSDS

If there is no [MSDS](#) Hyperlink available in the "View MSDS" column, the item may require multiple MSDSs. In this case you will need to click the expand button "⊕" located in the Kit column (see example below) to view applicable MSDSs.
